## YOUR GOVERNMENT SUPPORTS CRIME

---

President Cyril Ramaphosa, why do you treat the corrupt better than me?

I respond to the letter sent by Michael Louw, your Director Support Services, dated November 19 2018.

To no effect, I've supplied you detailed information against corruption and made impassioned plea. Without collusion, it's impossible that no one from Government, or from either side of the political spectrum, has helped in 8 years. Maybe there are only two sides that matter, the incredibly powerful versus everyone else. It would then be obvious which side you and crime are on, and that I and the Public are the unfortunate other.

The Presidency's negative role began early 2017. That may have been President Jacob Zuma's administration but you were his Deputy. My renewed complaints to the Presidency, under you, began February 2018. In respect to the issues I've presented, there's no difference between the two administrations – no one will act. That continues here.

Despite my many attempts to gain help against corruption, your intermediary sends me a letter ignoring the bigger picture and my lengthy correspondence. For you to ignore context shows that I'm again being shuffled into oblivion that mostly benefits corrupt members of the Democratic Alliance. How could that letter be so wrong unless deliberate? What possible reason is there to conclude otherwise?

The Presidency's referral of my complaint to COGTA Minister Dr. Zwelini Mkhize is grossly inadequate, emphasised by COGTA's failure to meaningfully correspond with me the 21 days since, but beginning with the important fact that COGTA Deputy Minister Andries Nel already denied me assistance (his letter in your possession). I further remind that the ANC's Faiez Jacobs, who also failed to act on my complaints against the Western Cape of the DA, was previously a contractor to COGTA. How can COGTA be trusted?

Additionally, COGTA cannot address the negative role of the Public Protector, the Hawks, regular SAPS, Magistrates, the Cape Bar, and the DA (as a political party). Only you can. That letter suggests that you have no intention of being honourable or effective.

It's obvious that you and your staff have no regard for the intimidation I've suffered and the loss the Public has incurred.

I'm past caring that the those we entrust our lives to may feel insulted. Robbing and threatening the Public is the real insult.

What matters is action. I've been a man of action. The Presidency hasn't.

I broke my silence to check my emails in case you or the Hawks had skipped bad tradition to present positive intention. But, again, there are only meaningless words and silences furthering delay benefiting evil.

You have final chance to prove me wrong and yourself moral.

You already have the evidence so there's no need for my presence now. You can make small but meaningful impact with...

- The Presidency:
  - End secrecy and unaccountability, starting in your office. List all actions, decisions and meetings by the Presidency and the President's Hotline. Name those involved. Explain how Michael Louw's inadequate November 19 2018 letter arose?
  - Detail my complaints and the related evidence that the Presidency has supplied to COGTA.
  - Have Public Protector Busisiwe Mkwebane (and Oupa Segalwe) explain why her office failed to act on my detailed 67-page complaint against her staff and their corrupted report, and to provide her office's correspondence with NCOP regarding the Love Knysna Petition.
  - Explain why NCOP Chair Thandi Modise failed to table the Love Knysna Petition for final action, detailing why she wouldn't respond to further evidence and my call for correct summary for MPs. Why didn't Modise hold the Office of the Public Protector accountable to the 60-day time limit NCOP gave them. Instead, another year gets wasted.
  - Demand of Premier Helen Zille and the DA Federal Executive, separately

and respectively, why the Western Cape Government and the DA wouldn't act on my complaints.

- Have Hawks Chief Lt. Gen. Advocate Godfrey Lebeya explain why he never responded to my complaint against the Western Cape Hawks' whitewashed intentions, and why the allocated investigating officer into lessened complaints failed to contact me.
  - Have the Policing Complaints Centre explain why they failed to attend my 2017 complaint.
  - Have Legal Aid investigate why KZN Provincial Manager Provincial Legal Manager and Durban Manager Gerhard Volschenk denied me assistance when I was obviously a candidate. 'Investigate' excludes their answer simply being supplied by a third party. The case, from beginning, must be reviewed by head office.
  - Have the South African Human Rights Commission CEO investigate why their Durban branch refused to allow me to record our meeting, denied me help on false grounds, and then (without explanation), switched minds to refer me to Cape Town which ignored me [KZ/1718/0521/BN].
- The Hawks:
    - Begins their investigation into the intimidation I've experienced.
  - COGTA:
    - Queries Deputy Minister Nel and Manager Anti-Corruption Elphus Ndou why they failed to act, ensuring that weak excuses are brushed aside i.e. Nel's denial was generalised, telling me to contact the SIU instead of acknowledging those parts obviously related to COGTA.
    - Enforce the actions recommended by the De Swardt Vogel & Myambo report (that was commissioned by Knysna Municipality). Have the related crooks suspended whilst investigated.
    - Investigate SALGA CEO Xolile George's illegal support for the Knysna Municipality to illegally sue me, and, separately, for SALGA to threaten to sue me.
    - Act on my complaint of severe racism by COGTA employee Asanda Magalela.

The Presidency and COGTA to send me answers and list actions undertaken by January 10 2019, and to state dates for intensive meetings over three days, January 16-18 2019, in Durban.

For immediate queries, I'll be available until 5pm today. Thereafter, I'll uncontactable until that January 10 when I check for your detailed response. The persons contacting me must be educated to the subject matter i.e. not starting anew.

If there's no meaningful response then I'll not contact you in this manner again, it then being conclusive that you, the South African Government and the ANC stand with the DA and criminals against the innocent Public of South Africa.

My protest, as previously explained, will go ahead. I'm aware of how small I am, and how apathetic our world is. I'm aware I'll probably lose. But if you're not going to act in the Public interest, warning them against the corrupt, I must do what I can.

As the President, you can never be be an innocent bystander. You are either Presidential or you're not.
