No, no, DA Councillor Dr. Martin Young. Leaving a racist comment like this standing the past 6 days is irresponsible. It has nothing to do with the better South Africa we should all be hoping for and working towards. An elected leader should know better.

Stuart Lightley, some of us never used that word 20 years ago!

All reasonable people should be angry at the destruction of our institutions but only if we don't become monsters too.

*PS: As for Young's followers, how come not one complained?*
